Tourists Express Desire To Come Here by Auto

J. C. MANN RECEIVES LETTER FROM MOTORISTS WHO WANT TO COME HERE.

That an auto journey to the copper country is a most pleasant outing is evident from the number who have already come to this district this summer and the numerous inquiries from the other pleasure seekers. This fact strengthens the stand of the Copper Country Commercial club to have the roads improved between Marquette and the copper country.

J. C. MANN, proprietor of the Douglass House, is in receipt of a letter from a tourist in Marinette, Wis., who evidently likes the district, having already been here and wants to return if the roads are in good condition. Excerpts from the letter follow:

"I write to inquire if there is a suitable road from Chippewa to Houghton and points farther north for an automobile trip. I have been to Marquette by way of Iron Mountain and found it a delightful trip. I understand there is a new road by way of Escanaba entering Houghton."

"I am planning to make a trip to Houghton soon, provided the roads are in good enough condition to permit the journey and I desire information concerning these roads. Of course if I come I do not want to be delayed any more than is absolutely necessary."
